

COMPACTOR **OF TIRES**

OUR STRENGTH IN YOUR WORK

TECHNICAL SPECIFICATIONS

TURBO ENGINE	
Manufacturer	Cummins
Model	QSB 4.5 - MAR-1 / TIER 3
Net power (ISO 3046)	123hp (92kW) @ 2,200RPM
Gross horsepower (SAE J1995)	130hp (97kW) @ 2,200RPM
Maximum torque	620Nm @ 1,500RPM
Injection type	Direct Electronic
N° of Cylinders / Displacement	4 / 4,5l
Aspiration	Turbo Intercooler

HYDRAULIC SYSTEM	
System	Closed
Direction	Hydraulics
Traction	Hydrostatics
General relief pressure	24 bar

SPREADING SYSTEM

Pressurized system - Electric drive - Serving front and rear wheels -Articulated scrapers with replaceable blades - Fan-shaped jet nozzles.

TRACTION SYSTEM

Hydrostatic system consisting of a pump, two axial piston motors and orthogonal planetary reducers connected directly to the rear wheels with built-in braking system.

Maximum Speed (km/h)	0 - 23
Hill climbing ability	30%
Oscillation	5° for each side
Articulation	30° to each side
Tires	11.00 x 20"

WEIGHTS	
Without Ballast (kg)	10,800
With Lower Ballast (kg)	16,000
Fully Ballasted (Special Ballast) (kg)	21,270

RESERVOIR CAPACITY	
Diesel Oil	285l
Hydraulic Oil	70l
Water tank (sprinkler system)	3001

ELECTRICAL SYSTEM	
Alternator	95 Ah
Battery	12 V
Voltage	12 V

STEERING SYSTEM

BDAKE SYSTEM

Hydraulic, independent circuit, Orbitrol type control, 2-point pivoting, with 3 directional wheels on the front axle.

Туре	Hydraulic
System Filtering	Return line
Displacement	Electronic pedal

Mechanic
Spring actuation, multi-disc brake acting on the rear reducers
Spring actuation, multi-disc brake acting on the rear reducers
Hydrostatic

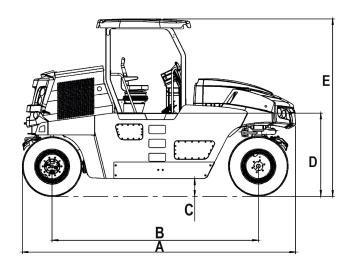

Parking	Spring actuation, multi-disc brake acting on the rear reducers
Туре	Hydrostatic
Service	Hydrostatic drive, multi-disc brake acting on the rear reducers

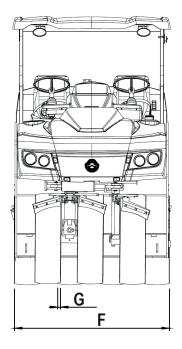

CHASSIS

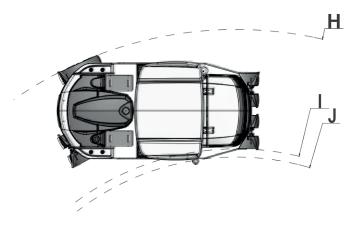

Monoblock structure with 1.6m³ ballast box, with side covers for ballast removal and filling from the top.

Load evenly distributed between front wheels and rear.

Removable lower ballasts.

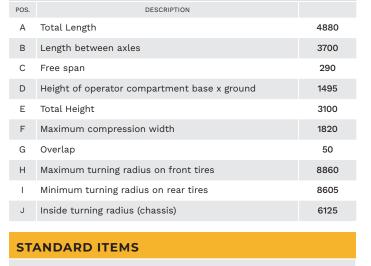

*Specifications subject to change by the manufacturer without notice.

TECHNICAL DIMENSIONS MP 721 (mm)

- Reverse gear audible alarm
- Adjustable seat with spring suspension
- Horn
- · Sealed battery 150Ah 950 CCA
- Emergency push button
- · System master key
- · Parking brake
- Fuel gauge
- Engine temperature indicator
- · Engine fault indicator
- Warning light (brake, engine oil pressure, engine temperature engine oil, low fuel and battery)
- · Manual brake release for trailer
- Pressure gauges (tire pressure / pneumatic circuit pressure)
- Steering wheel knob
- · Operation and maintenance manual and parts catalog
- Instrument panel with hour meter
- · Lifting points
- · Lubrication points
- · Indicator arrows
- Automatic tire pressurization system and pressurization control
- Machine rest supports
- Tachometer
- Sunroof
- Pressure test sockets
- 4 headlights and 4 taillights

OPTIONAL

- Air suspension seat
- Closed cabin with air conditioning
- Retractable belt
- Preventive maintenance contract
- ROPS/FOPS protective structure
- · Fire extinguisher
- · Additional ballast
- Tire 13/80 R20
- AM/FM/MP3 radio with USB and speakers
- · Rotating beacon
- Satellite monitoring system
